## Top Skills

ASP.NET Core
C#
Full-Stack Development

## Certifications

Responsive Web Design
JavaScript Algorithms and Data Structures

# Kalu Abiyu

Full-Stack Software Development Trainee (Web and Mobile) at Qiyas_AAU Project
Ethiopia

## Summary

Full-Stack Software Developer building production-style apps on .NET + Angular, with a growing focus on system and database design.Currently in month 4 of a 6-month fullstack training program at Qiyas — C# 14 / .NET 10, TypeScript, Git, ASP.NET Core 10, EF Core 10, PostgreSQL — applied to real projects, not tutorials.Current work:# Training Management System (TMS)Full-stack course enrollment platform, ASP.NET Core 10 API + Angular 22 client.Playground for Clean Architecture, CQRS with MediatR, JWT-secured APIs, SignalR real-time notifications, and async background processing with idempotency guarantees. Second production-scale systemExploring zoneless Angular with Signals and NgRx SignalStore, on a Clean Architecture / CQRS backend.I care about what doesn't show up in a demo — clean domain boundaries, predictable APIs, systems that hold up under real usage.Based in Addis Ababa, Ethiopia, actively seeking junior fullstack roles in .NET and Angular, and open to connecting with fellow engineers.

## Experience

### Qiyas_AAU Project

Full-Stack Software Development Trainee (Web and Mobile)
June 2026 - Present (5 months)
Addis Ababa, Ethiopia

Building production-style applications end-to-end on the .NET and Angular stack — from API and database design through to the client.

• Currently in month 4 of a 6-month intensive fullstack training program, deepening hands-on skills across C#/.NET, ASP.NET Core, EF Core, PostgreSQL, and Angular

• Built two independent, production-scale systems alongside training, applying Clean Architecture, CQRS, and JWT-secured APIs

• Implemented real-time features using SignalR and zoneless Angular clients with Signals and NgRx SignalStore

• Strong, consistent focus on system and database architecture

• Actively seeking junior fullstack roles working with .NET and Angular

## Education

### Admas University

Bachelor of Science, Computer Science · (May 2022 - February 2026)
